

FOR IMMEDIATE RELEASE

Nagarro Named to 2008 “Global Services 100” List of Top Outsourcing Firms

*Outsourcing Experts from Global Services Magazine and neoIT
Recognize Nagarro Among the Most Innovative Service Providers Worldwide*

San Jose, Calif. – Feb 1, 2008 – Nagarro, Inc., a leading provider of specialized technology services for highly complex markets, today announced that it has been included in the 2008 Global Services 100 list. The Global Services 100 list, now in its fourth year, is designed to enable buyers of business and technology services to identify the leading providers in IT services and business process outsourcing (BPO). Nagarro is one of 29 companies with operations in India selected for this year’s list.

“Nagarro is honored to be recognized as one of the top IT services firms in the world,” said Vikas Sehgal, CEO of Nagarro. “We have developed scalable processes that ensure high-quality execution of some of the most technically challenging projects in our industry. Our high customer satisfaction ratings are a result of our commitment to providing cost-effective and innovative solutions to support their strategic business initiatives.”

Judges from *Global Services* magazine team up with experts at neoIT, an outsourcing advisory firm, to identify and evaluate the leading service providers located on four continents. The evaluation is based upon data provided by the service providers and third parties regarding effective operations, service offerings, client relationships and human capital.

“The Global Services 100 list, presented by *Global Services* and neoIT, has grown to be a highly credible listing of global IT services and BPO companies. The list helps service buyers leapfrog the request-for-information stage and Global Services 100 companies almost always make it to the RFP stage in a service deal,” says Ed Nair, Editor, *Global Services*.

Nagarro’s helps companies in its key markets – manufacturing, pharmaceuticals, financial services and software – gain access to employees with the required expertise for their highest-value application and product development needs. By working with Nagarro as a development partner, clients can immediately collaborate with specialized teams led by experienced project managers and carefully overseen by Nagarro’s management team.
